

EXPANDING SPACEWAY ENHANCES ITS PROJECT MANAGEMENT TEAM WITH TWO NEW APPOINTMENTS

Romsey based Spaceway South, one of the UK's leading providers of integrated interior space solutions, has made two new appointments to strengthen its project management team.

James Wylde, previously a Technical Draughtsman with Spaceway, has been promoted to Estimator, and James Warner takes over the role of Project Co-ordinator from his previous position as Estimator.

James Warner has extensive experience in project engineering having worked as a Contracts Manager with a commercial soft furnishings company prior to joining Spaceway in 2003. His new role will require him to manage Spaceway's many fit-outs by co-ordinating the different elements needed to ensure the successful completion of a project including cost management, ordering plant and materials, organising a programme of activity and arranging a debriefing meeting to analyse the finished project.

Prior to joining Spaceway in 1999, James Wylde was a Draughtsman for a mezzanine and interiors company. As Estimator, he will be responsible for

translating drawings into estimates, which will involve him carrying out day-to-day liaison with Spaceway's sales team and negotiating prices with suppliers.

Commenting on the new appointments, Managing Director, Malcolm Jeary says: "These promotions reflect our determination to offer top quality service and prices to all our customers as well as providing them with seamless project management from the beginning to the conclusion of each and every assignment".

Established in 1976, Spaceway is recognised as one of the UK's leading providers of integrated interior space solutions for private sector businesses and public organisations. Located in Hampshire but serving customers across the South and Midlands, the company provides an integrated approach to space solutions that includes mezzanine floors, partitioning, suspended ceilings, storage systems, special structures as well as furniture and small parts storage. **Ends**
