SPACEWAY IN FIRST POSITION WITH NEW ORDER FROM WIGGLE

The installation of a two-tier longspan racking system, flooring and associated lighting and electrics as well as the installation of a mezzanine floor, which has doubled the area in the company's new 285 sq. metre facility.

Spaceway South, the Romsey based interiors company, has maintained its close ties with Internet sports equipment company, Wiggle, by fitting out its new premises at Mountbatten Business Park in Portsmouth. A continuation of a working relationship that began three years ago, Spaceway has undertaken a number of projects for Wiggle in line with the company's ongoing expansion.

The latest project involved the installation of a two-tier longspan racking system, flooring and associated lighting and electrics as well as the installation of a mezzanine floor, which has doubled the area in the company's new 285 sq. metre facility. Designed, project managed and constructed by Spaceway, on time and within budget, the new facility provides Wiggle with additional, essential storage to meet the company's expanding turnover, which now stands at over £12 million per annum.

Previously, Spaceway had undertaken the fitting out of the company's other facility with the installation of mezzanine floors, racking, offices and a staff recreation room. This had involved taking a basic shell, designing a layout that would maximise space in the 400 square metre area, carrying out all the construction and electrical work and then fitting out the area with racking, office furniture and furnishings.

"We have always been very pleased with the work done by Spaceway so when we acquired this new facility, we had no hesitation in offering them the contract", says Harvey Jones, Technical Director. "It is especially useful to know that just one company is handling the complete project from design through to commissioning."

Established six years ago, Wiggle is a specialist Internet Company providing sports equipment and clothing for cycling, running and active sports. Now employing a workforce of 35, the company has built its reputation on providing quality goods, fast service and competitive prices.

Established in 1976, Spaceway is recognised as one of the UK's leading providers of integrated interior space solutions for private sector businesses and public organisations. Located in Hampshire but serving customers across the South and Midlands, the company provides an integrated approach to space solutions that includes mezzanine floors, partitioning, suspended ceilings, storage systems, special structures as well as furniture and small parts storage. **Ends**
