

SPACEWAY'S DESIGNS BEEFS UP PRECOR'S HEADQUARTERS

When fitness equipment company, Precor Products, needed to expand its UK headquarters following the purchase of the company by the AMA Corporation, Precor Products turned to Spaceway South to reconfigure its existing head office to provide it with an additional office space.

A continuation of a long-term relationship that began in 2003, Spaceway South has provided Precor Products with 200 square metres of extra offices.

Precor Products is a fast expanding company that supplies complete fitness packages to private gyms, leisure centres, hotels, education establishments, corporations and the MOD. In late 2003 the company was acquired by the AMA Corporation, a European competitor that has invested in Precor's site at Finchampstead to help centralise the Group's operation.

Having already successfully carried out a major project for Precor Products in 2002, Company Secretary, Gill Scrutton, had no hesitation in asking Spaceway South to draw up designs for expansion.

“Spaceway had managed the redesign of our building so well in 2002 that we had no hesitation in choosing them again for the new development”, says Gill Scrutton. “The company always gives attention to detail and comes up with helpful suggestions. In addition they employ excellent staff who know exactly what they have to do and are always courteous”.

Spaceway South submitted designs to Precor Products, that provided them with the additional space required by installing a FlooriTall? mezzanine floor, moving existing partitioning, fitting new Komfort Kameo partitioning and suspended ceilings. Finally, Spaceway installed all electrics, lighting, floor covering and air conditioning.

Originally established in Seattle, USA in 1980, Precor Products first opened in the UK in 1993. The company retails a wide range of gym equipment including elliptical fitness cross-trainers, treadmills, cycles, climbers, stretch trains and strength training systems. Its world leading brands of Wilson, Atomic, Suunto and Precor are supplied to both domestic and commercial customers through its dealership network.

Established in 1976, Spaceway is recognised as one of the UK's leading providers of integrated interior space solutions for private sector businesses

and public organisations. Located in Hampshire but serving customers across the South and Midlands, the company provides an integrated approach to space solutions that includes mezzanine floors, partitioning, suspended ceilings, storage systems, special structures as well as furniture and small parts storage. **Ends**
