Dear Dominic

**Re: Airconco Head Office & Warehouse Project**

Now that the project has been completed, we wish to thank you and all your team for the excellent job you have done for us.

Spaceway's handling of all aspects from the design and specification stage right through to final completion has been exemplary and as a consequence of this you have removed a lot of the 'hassle' from us during the project period.

The standard of finish is superb and attention to detail cannot be faulted.

As with all projects of this type, various additions and changes are required to the original plan and I have to say that Spaceway have accommodated us in all respects.

We thank you again and would confirm that we would have no hesitation in using Spaceway for any future projects we may have or recommending you to others.

Kind regards,

Andrew Cohen  
Managing Director
