To Whom it May Concern

SPACEWAY SOUTH LIMITED

Spaceway South were our chosen supplier for the fitting out of our warehouse. They did this so successfully that we appointed them to supply and instal the racking including a pallet live system and carton live system in the stores section of our new energy saving environmentally friendly facility on the Isle of Wight.

During these projects, we found Spaceways a very responsive and helpful partner. They overcame the problems of an ever changing brief made necessary by our growth during that time exceeding our expectations, in a friendly and imaginative manner.

We would have no hesitation in using them again for similar projects as they arise.

Stephen Tobitt
Director of Finance & Operations
