03 MAY 2005

Dear Malcolm

Following the completion of the installation of our mezzanine floor I would like to take the opportunity to thank you and your colleagues for all the hard work during and leading up to the work being carried out. Every member of staff we had contact with was both polite and made every effort to make the transformation run as smoothly as possible. All members of the installation team again were very polite and made a conscious effort to keep our work environment clean and tidy, making sure we were informed and happy with the work every step of the way.

With all of this in view I would be more than happy to recommend your services to any prospective clients.

Once again thanks to everyone involved.

Regards

Ian Hearn  
Chief Executive
