

Case Study

ENGLEMANN & BUCKHAM

PROJECT

A complete fit-out of new purpose built offices.

CLIENT

Englemann & Buckham

DETAIL

Spaceway were called in at the design stage to help Englemann & Buckham, sellers of high quality capital plant, ancillary equipment and materials from overseas manufacturers, make the most of the space available.

The new interior took shape with new carpets, ceilings and lighting. Workstations, partitioning and furniture were supplied and installed, ensuring the company's 40 employees could all work in the same area.

CLIENT FEEDBACK

"Our old building had lots of small offices with staff spread out all over the place. The move has enabled us to consolidate our Sales team into one area with all Sales Directors in close proximity."

Jeff Lennon

Finance Director, Englemann & Buckham
