

Solutions in Action

The challenge

With the sales of its products increasing year on year by 33%, mountain bike Component Company, X-Lite needed new premises to accommodate its growing workforce and stockholding. With space at a premium, Spaceway set about maximising the area available to include warehousing, offices and a mezzanine storage facility. Spaceway carried out the work within a strict timescale in order that X-Lite staff could move into the new accommodation as quickly as possible.

Spaceway's approach

Spaceway has turned a 5,000 sq. ft shell into a modern and functional working environment comprising of warehousing, offices and a mezzanine storage facility. Office accommodation has been created by installing suspended ceiling and using Komfort 'Kameo' partitioning finished off with carpet tiles, wall coverings and light fittings. The warehouse area has been fitted out with pallet racking to create an easy picking environment and additional storage has been created with the installation of a FlooriTall™ mezzanine floor.

Spaceway has turned an empty area into this.....

And this.....

Customer's comment

"We chose Spaceway because they were proactive and came up with the most creative ideas to maximise the space available", says Alex Trimnell, Director of X-Lite. "They worked with us to understand our requirements and provided us with a "one-stop-shop" for all our interior requirements but also are competitively priced".

Solutions / products used

OFFICES

Office accommodation has been created by installing suspended ceiling and using partitioning finished off with carpet tiles, wall coverings and light fittings.

- Komfort 'Kameo' partitioning

WAREHOUSES

The warehouse area has been fitted out with pallet racking to create an easy picking environment and additional storage has been created with the installation of a mezzanine floor.

- FlooriTall™ mezzanine floor
